

Performance

Technical Information

Features

Acoustic performance:

Absorption range | 250Hz to 2000Hz

Bow - S | 595x148x75mm

Bow - M | 892x148x107mm

Bow - L | 1190x148x138mm

Finishing Material:

MDF Lacquer - FG (Furniture grade)

Click on a certain finish for more detailed information

Dimensions:

0x0x0mm | 0.0 Kg

The Bow range is a new design born of the collaboration between Jan Morel and Artnovion.

The bow is an elegant balance between simplicity and futuristic design. The Bow is available in 3 different sizes.

Each Bow has a solid wooden shell, forming a carefully calibrated semi-circular diffuser, with dual lateral closed cavities packed with high-performance acoustic foam. The Bow has a further central Helmholtz cavity extending the mid-range frequency absorption, for an overall balanced mid-high frequency hybrid absorber with an outstanding geometric diffusion.
